

Dear Future Fourth Grader,

Welcome to Fourth Grade! I am so excited and thrilled to have you in my class! We are going to have an amazing school year together filled with many laughs, successes, and a great deal of excitement!

In fourth grade we will learn so much! We will do science experiments in order to learn more about the water cycle, electricity, and matter. In social studies, we will take a virtual tour around the United States and learn all about Pennsylvania. As a class, we will also read engaging and interesting

books in our mystery unit, historical fiction unit, and realistic fiction unit. Trust me- you will fall in love with the characters we encounter through our reading! In math, we will work together to practice our skills through hands-on and engaging activities. Plus, we play so many fun math games to practice our new skills and learning! What are you most excited to learn in fourth grade?

Over the summer, I will be traveling all the way across the United States and spending some time in Arizona and Utah. I will also be traveling to Ireland! Will you be going anywhere fun or doing anything exciting this summer? I can't wait to hear all about your summer when you return in the fall.

Don't forget to bring your school supplies, a healthy snack, your favorite book, and a big fourth grade **SMILE** on the first day of school! I will be waiting outside of our classroom door to greet you first thing in the morning on September 3rd! I am so excited to have a wonderful year together, and I hope you are too!

Have a great summer! Talk to you soon!

Your new teacher,
Miss Keller
